### **CUREIE Updates—Javier Alegre & Martha Mendes**

Javier informed the Council that CUREIE will be meeting tonight at 5:00 PM to discuss some of the initiatives that Suicide Prevention will be working on and CUREIE would like to hear from the state and those involved with the Racial and Ethnic Equity Committee to get their feedback regarding what can be provided to our minority communities. Javier encouraged other members of UBHPAC with the same interests to attend as well.

CUREIE is still working on a proposal with the Division to create language specific training to create a safe space to talk about race and equality in other committees like UBHPAC.

Martha let the Council know that the committee's name has been changed from REIC to CUREIE, which stands for Communities United for Racial and Ethnic Integration and Equity. Martha said the group had been informed that Reich, pronounced the same, refers to Germany during the period of Nazi control from 1933 to 1945. Martha explained that since the Council is committed to racial and ethnic equity, they felt it best to change the name to not have any mistaken association with Reich.

### **DSAMH Updates— Pam Bennett**

Pam let the council know that the Division is finishing up some of the legislative changes such as the new 988 number and working closely with the crisis team to get this implemented.

Pam also reported that the Division is currently categorizing the extra Block Grant money and some emergency COVID-19 funds into areas such as quality improvement, youth under six years of age, homelessness to name a few. Next the Division will focus on allocating the funds. Once this is complete there will be a request for proposals in hopes that culturally relevant agencies and services can become vendors to provide services to those they serve. Pam said that she is open to feedback on community agencies that can be brought in to have their proposals considered. Shanel Long pointed out that this will be a way to streamline the procurement process so funding does not take as long but will not be a guarantee to receive funding.

**Adjourned at 1:52 P.M.**
