## Mental Health Limited Data Set Definitions FY2019

Effective July 1, 2018

# Division of Substance Abuse and Mental Health

### **Change Log**

DATE	AUTHOR	VERSION	NOTES
6/18/2018	Ryan Carrier	1.2	Updated file for redistribution FY2019
6/18/2018	Ryan Carrier	1.1.1	Updated file for redistribution
6/20/2014	Sandra Cerchiari	1.1	Updated dates to FY2015

#### **Limited Data Set**

This limited data set can be used for services that occur while the client is incarcerated, if the client is in crisis, or if the client is only receiving assessment or testing services. Different data elements determine if the client meets these criteria. For clients receiving jail services the location code will need to be "9" so in this case the location code needs to be a valid code. The emergency indicator would need to be set to "Y" for clients in crisis. The CPT codes that are used for testing and assessment will be used to determine if the client is only receiving an assessment/testing service.

This file will be set up exactly like a normal MHE file with the exception that there can be unknowns on many of the fields and it will not error due to too many unknowns. Valid responses are required for the limited dataset on a select number of fields. All other fields that are required in a normal MHE file are still required to be submitted but may be an unknown value.

All files should be run through the validator before trying to upload into SAMHIS.

#### **Diagnosis Codes:**

DiagA1 – DiagA10 are for Axis I diagnosis codes. All codes will be checked to see if they comply with the accepted DSM IV format. Codes not conforming to the approve format will be rejected. There is room for up to ten diagnoses with DiagA1 filled out first followed by DiagA2 until there are no more Axis I diagnoses or DiagA10 is filled out. The date corresponding to each diagnosis is the last date the diagnosis was updated.

#### **Enrolled In Education:**

All clients should be asked "At any time IN THE LAST 3 MONTHS, has this person attended school or college? *Include only nursery or preschool, kindergarten, elementary school, home school, and schooling which lead to a high school diploma, a college degree or other formal certification or license.*" This will allow the Division to more fully comply with National Outcome Measures. Code 1 for Yes, 2 for No, and 97 for Unknown. In the future this field will include program types.

#### **Atypical Medication Used:**

Code 1 for Yes if the client was prescribed one or more of these atypical medications during the quarter: Clozapine, Quetiapine, Olanzonpine, Risperdone or Ziprasidone. Code 2 for No atypical medication was prescribed during the quarter and 97 for Unknown. In the future we will be looking at including the National Drug Codes for the drugs prescribed.

#### **Event Date Rule:**

- Event Dates must fall within the current fiscal year. Event dates should include time where available.
- Event dates must fall between the client's birth date and discharge date.

#### **Length of Stay:**

Calculated from the date of admission to the most recent event of service, when a discontinuation or discharge date is received for this (unique) admission.

#### **Age Validation:**

Client's age is calculated for each event row and cannot be greater than 100.

#### **Sub-contracting Patient Services:**

When a Community Mental Health Center (CMHC) sub-contracts any patient services, it is the responsibility of the CMHC to collect necessary documentation from any subcontracted provider necessary to maintain Mental Health Event data reporting to the Division.

#### **Record Number Rule:**

Record number field is now required to be unique for a given provider and client ID on admit/event rows. Duplicate record numbers will produce an error. On discharge rows it can be left blank. If supplied on discharge records it will be validated.

#### **Client Name Validation Rules:**

\*\*Use Legal Names\*\*

MHE file will have fields for the following parts of a name:

- Last name
- First name
- Middle name

Names can be entered in either upper case, lower case, or a mix.

Spaces: Allowed in first and middle names. NOT allowed in last names.

Example: Mc Donald should be entered as McDonald

De La Cruz should be entered as DeLaCruz

Example: Le Ann Mary Ann Mc Cartney

Can be entered as: First: Le Ann Middle: Mary Ann Last: McCartney

**Hyphens:** Allowed in first, middle, and last names. It is the only allowable punctuation character allowed.

Examples:

(last name) Smith-Jones should be entered as Smith-Jones (first name) Jo-Ann should be entered as Jo-Ann (last name) O'Rilley should be entered as ORilley (last name) St. James should be entered as StJames

(first name) D'Ann should be entered as DAnn or D Ann

Numeric characters: Not allowed in any name

**First name is an initial:** The initial can be entered in the first name field but no periods.

**Middle name:** If there is no middle name or it is not available, leave blank. Supply the full legal middle name where possible and the middle initial if that is all that is available. Periods are not allowed.

**Second name:** Enter the second name in the middle name field

Example: J. Edgar Hoover

First name: J (no period)
Middle name: Edgar
Last Name: Hoover

**Enter legal names rather than nicknames** 

Example: "Bill" should be entered as William "Bob" should be entered as Robert

"C.J." should be entered as Carlos as a first name and James as the middle name

Titles, Prefixes, Suffixes: not allowed

Naming rules synopsis:

Character	Last Name	First and Middle Names
Alpha Characters	Allowed	Allowed
Hyphen	Allowed	Allowed
Spaces	Not Allowed	Allowed
Apostrophe	Not allowed	Not allowed
Numeric Characters	Not allowed	Not allowed

#### **CSV File Generation Guidelines**

- 1. All files should be submitted without a header row.
- 2. It is recommended that fields **NOT** contain extra spaces for padding. For example, if a field allows 11 digits but the code values only use 3 digits then 3 digits is an acceptable width for the field. Adding the spaces only increases the size of the file and slows down uploading and processing of files.
- 3. Non-required fields must either be blank or contain a valid value.
- 4. Commas are not allowed within the data in any field. (Commas are column delimiters.)
- 5. Do not use quotes in any fields.
- 6. Do not insert blank lines between rows of data.

#### **Discharge Rows**

There are two types of records in an MHE file: admit/event and discharge. Discharge data is to be submitted separately from event, admission, diagnosis, and demographic information.

All records with a date in field 57 are considered discharge records.

Discharge records require that you provide data in the following fields: 2, 7, 57, 58, 59, and 68.

All other fields should be left blank. If data is supplied in any other field on a discharge records then that data is validated, but ignored.

Do not put discharge dates on rows with valid admit/event data since that data will not be loaded.

Only one discharge record will be accepted per client per admission in a given file.

Files with multiple discharge records for the same client / admission will fail to load.

Discharge dates cannot fall before any event dates for a given client and admission.

#### **NOMS Values Reporting**

T1 NOMS values will be taken from the first admit/event record of the reporting period (state fiscal year) and T2 NOMS values will be taken from the last date of service (most recent event record) within the reporting period.

<sup>\*</sup> This check is to make sure that valid admit/event data is not lost.

#### Percent (%) Unknown Validations

The Client-side Validation Application will check for "unknown" values for fields identified in the *Mental Health Events File Format* table below with a value in the 'Unknown %' column.

Only the most recent event row for each client in the file will be used to calculate the unknown percentages. Event rows will be sorted by client and then by event date to determine the most recent event row for each client.

Discharge rows, assessment services, and services provided with the location code of "prison/correctional facility" are not included in the % of unknown calculations.

Files with unknown percentages over the acceptable limit will cause the file to error out. Processing of a file with unacceptable unknown percentage(s) will require SAMHIS Administrator assistance to override the error.

#### File Processing Sort Rules

#### MH Event Rows

Sorting as follows with subsequent sort rules applying within the 'parent' sort rule.

- System Trans Type (Delete, Add and then Change)
- MH Provider ID (numeric ascending)
  - client ID (provider's) (alphanumeric ascending)
  - admit date (chronological)
    - event date (chronological)

#### MH Discharge Rows

All discharge rows are not processed until all event records in the file have either been processed successfully or were canceled. Same sort order rules apply for discharge rows (where applicable). Sorting as follows with subsequent sort rules applying within the 'parent' sort rule.

- System Trans Type (Delete, Add and then Change)
  - MH Provider ID (numeric ascending)
    - client ID (provider's) (alphanumeric ascending)
    - admit date (chronological)
    - discharge date (chronological)

ProviderEventRecordI DNo ClientID FirstName LastName MiddleName SSN	Provider event record ID number  Client Identifier  Client's full legal first name  Client's full legal last name	Codes/Allowed Values  String value that uniquely identifies a client event for the provider.  Mapped value from MHO. (Unique client identifier)	string (50) string (15)	% Unknown	Required*  Yes	Key field. Use a unique ID for every event record, that can be used to identify the same unique event record in your system. All admit/event records require fields 1,2 and 7. Duplicate record numbers will produce a file submission error. This field can be left blank
ClientID  FirstName  _astName  MiddleName	Client Identifier  Client's full legal first name	for the provider.  Mapped value from MHO. (Unique client			Yes	unique event record in your system. All admit/event records require fields 1,2 and 7.  Duplicate record numbers will produce a file submission error. This field can be left blank
FirstName  _astName  MiddleName	Client's full legal first name		string (15)			on discharge records. If data is provided in this field on a discharge record then that data is validated.
_astName					Yes	Key field. Client ID to be unique within the MHO and unique to each client admitted or readmitted to that MHO. It must not be reassigned to another client. Mapping must be consistent across quarters. All records require fields 2 and 7.
MiddleName	Client's full legal last name	Only characters specified in MH Data Definitions.	string (25)		Yes	See MH Data Definitions document for name validation rules.
		Only characters specified in MH Data Definitions.	string (30)		Yes	See MH Data Definitions document for name validation rules.
CNI	Client's full legal middle name	Only characters specified in MH Data Definitions.	string (25)		No	See MH Data Definitions document for name validation rules. If client does not have a middle name leave blank.
NICA	Social Security Number	000-00-0000 = Unknown 999-99-9999 = None	string (11) NNN-NN-NNNN		No	Missing SSN updated at six month review.  SSA modified the SSN assignment rules June 25, 2011 and SSNs are assigned randomly using all available numbers except those starting 000, 666, 900-999. We will also do not allow 123-45-6789 or 099-99-9999. Valid SSNs cannot be utilized by more than 1 client.
DateAdm	Date of most recent client admission	date	string (10) MM/DD/YYYY		Yes	Key field. Note: All records require fields 2 and 7 regardless if they are an event or a discharge record only.
egalSta	Legal Status	Y = Civilly Committed N = Not Civilly Committed F = Forensic commitment -State Hosp only 97 = Unknown	string (2)	10%	Yes	This required variable is to be updated at the 6-month case review. All adult and youth commitments and youth NDFF commitments are to be reported here.
Gender	Gender	M = Male F = Female	string (1)		Yes NOMS	
DateBir	Date of birth	Legal date	string (10) MM/DD/YYYY		Yes NOMS	Note: 4-character year
Hispanic	Hispanic or Latino origin	Y = Yes N = No 97 = Unknown	string (2)	10%	Yes NOMS	
Race	Race	1 = Alaskan Native 2 = American Indian 3 = Asian 4 = Native Hawaiian or Other Pacific Islander 5 = Black/African American 6 = White 7 = Unknown 8 = Two or more races 0 = Other single race	number (2)	10%	Yes NOMS	Indicates the client's race. If you don't distinguish between American Indian and Alaska Native, code both as American Indian. Clients of Hispanic ethnicity are typically coded as "White" in the racial category.  Alaska Native: (Aleut, Eskimo, Indian) Origins in any of the original people of Alaska.  American Indian: (Other than Alaska Native) Origins in any of the original people of North American and South America (including Central America) and who maintain cultural identification through tribal affiliation or community attachment.  Asian: Origins in any of the original people of the Far East, the Indian subcontinent, Southeast Asia, including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Philippine Islands, Thailand, Vietnam.  Native Hawaiian or Other Pacific Islander: Origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.  Black or African American: Origins in any of the black racial groups of Africa.

59	TxComplt	Treatment completion at discontinuation	1 = Completed/substantially completed 2 = Mostly completed 3 = Only partially completed 4 = Mostly not completed	number (1)		No	This field must be filled out if field 57 is supplied and left blank if no discharge date(field 57) is available.
			5 = Does not apply (Evaluation only)				
60	AtypicalMed	Atypical Medication Used	1 = Yes 2 = No 97 = Unknown	string (11)	20%	Yes	Was an atypical medication(Clozapine, Quetiapine, Olanzonpine, Risperdone or Ziprasidone) prescribed at least once during the quarter?
61	EventDateTime	Date and time of event	Any legal date and time	string (19) MM/DD/YYYY hh:mm:ss		Yes	For every service given to a client a new record must be generated with a date. Event dates must fall within the current fiscal year <b>and be between the client's birth date and discharge date.</b> If your system doesn't track time for events then specify 00:00:00 for the time part. Be sure to put a single space between the date and time.
62	Service Code	Service being	(See notes)	string(15)		Yes	A list of the Service Codes can be viewed/downloaded from the SAMHIS
		provided					Website. (https://www.dsamh.dhs.utah.gov/samhis)
63	Service Code Modifier	Modifier for service code	(See notes)	string(10)		No (see notes)	A list of the Service Codes can be viewed/downloaded from the SAMHIS Website. (https://www.dsamh.dhs.utah.gov/samhis)  Leave blank when service code does not have a modifier.
64	EventDuration	Duration of event in either days or hours (see notes)	Number of hours or days	string (6) NNN.NN		Yes	Value is in either days or hours depending on the Service Type of the event. Hours may be expressed as decimal fractions (e.g., one hour and 45 minutes = 1.75). Days may <u>not</u> be reported in decimals. No more than one day may be reported for each event per day.  For service codes 124, 170, H2016 this field cannot be greater than 1.00 otherwise this field cannot be greater than 16.00. Events with a duration of 0 (zero) will not be saved into the database, because these events are not billable services.
65	FundingSrc	Funding source	1 = Medicaid 2 = Non-Medicaid 3 = Unfunded 4 = Medicaid, but service not covered by Medicaid 5 = Underfunded, has funding but it does not cover all services.	number (1)		Yes	Medicaid funding is determined retroactively.  Code 1 if client is on the Medicaid monthly eligibility list for the month services were received.  Code 2 if client has other non-medicaid funding source [i.e. personal resources (full cost of services), private insurance, medicare, or service contract, etc.].  Code 3 if client has no other funding source (unfunded 2.7, other county funds, and does not meet the definition of codes 1, 2, 4, or 5).  Code 4 if the client is on the Medicaid monthly eligibility list but the service provided is not covered by Medicaid.  Code 5 if the client has a type of funding (i.e., personal resources, insurance, medicare, other service contract, etc.) but the service provided is not covered.
66	SAMHIS Client ID	Unique ID specified by the SAMHIS system		string (10)		No	SAMHIS Client ID should be included or left blank until available
67	emergency_ind	Emergency Indicator	Y = Yes N = No	string(2)		Yes	As of FY2010 this field replaces service code 180 for reporting of emergency hours.
68	ProviderId	Provider Identifier	State assigned MH Provider ID	string(15)		Yes	Key Field. This is your state assigned provider ID.  IDs are always at least 2 characters in length.
69	criminal_justice_nbr	Number of Arrests	0-96=Number of Arrests 97=Unknown	number (2)	10%	Yes NOMS	This item is intended to capture the number of times the client was arrested for any cause during the preceding 30 days. Any formal arrest is to be counted regardless of whether incarceration or conviction resulted and regardless of the status of the arrest proceedings at the time of admission.  This required variable is to be updated at the 6-month case review.
