Clients in this population may have:

- \* Continued treatment through a different payor (TAM/AME/Private Plan), resulting in different lengths of stay than stated.
- \*Completed treatment through a different payor (TAM/AME/Private Plan), resulting in different tx completion percentages than stated; and different abstinence, housing, employment, criminal justice involvement, and tobacco use outcomes from admission to discharge than stated, or
- \*Started tx with a different payor (TAM/AME/Private Plan), resulting in different abstinence, housing, employment, criminal justice involvement, and tobacco use outcomes from admission to discharge than stated.

Note: Outcomes exclude detox discharges  
Salt Lake, Davis, Weber (Morgan is included in Weber County), and Utah Counties are reported as Urban. All other counties are reported as rural.

Green = 90% or greater of the National Average or meets/exceeds division standards.  
Yellow = Greater than or equal to 75% to less than 90% of the National Average.  
Red = Less than 75% of the National Average or not meeting division standards.

- \* No one homeless at admission so no opportunity for change.
  - \*\* No one reported at discharge.
- Decreased Use and Completing Modality Successfully are not national measures and are not scored.

State Total for Clients Served is an unduplicated client count across all modalities and is not a sum of the clients served for the providers listed.  
Final Discharges are reported by treatment episode.

Initial Admissions are the number of unduplicated non-transfer admissions to a treatment modality that occurred within the fiscal year. Clients served are an unduplicated count of clients served during the fiscal year. Due to a change in reporting procedures, The numbers on this chart may not be the same as reported in previous years.

Justice Involved includes a Referral Source at Admission of 11 - Justice Referral

Areas or cells without enough reportable data are grayed out

Calculations for SA Outcomes:

All outcomes are percent increase or decrease. Specific percentages are calculated as follows using FY final discharges, excluding detox-only clients. Percents at admission and discharge are calculated by dividing the number of clients reporting the outcome divided by the total number of discharged clients with valid, non-missing, data for that measure:

Abstinence (Percent Increase):  
(Percent abstinent at discharge **minus** percent abstinent at admission) **divided by** percent abstinent at admission

Stable Housing (Percent Increase):  
(Percent not homeless at discharge **minus** percent not homeless at admission) **divided by** percent not homeless at admission.

Employment/School (Percent Increase):  
(Percent employed/student at discharge **minus** percent employed/student at admission) **divided by** percent employed/student at admission.

Criminal Justice (Percent Decrease):  
(Percent arrested at 30-days prior to admission **minus** percent arrested 30-days prior to discharge) **divided by** percent arrested 30-days prior to admission.

Length of Stay:  
Median length of stay calculated from admission date to date of last contact for those discharged in the fiscal year
