## All Served Clients (youth, age 0-17)

### Definitions and Calculations:

- Client totals are distinct/unduplicated per area; State is unduplicated across the state, Rural is unduplicated across the rural centers, Urban is unduplicated across the urban centers. Rows cannot be added in a column.
- Clients can receive multiple service types and may be duplicated across service types. Columns cannot be added across service types.
- Supported employment includes # of clients with a supported employment status anytime during the fiscal year.
- Supported Housing includes count of clients that received that service anytime during the fiscal year (service code 174 only).
- Jail Services client counts are from those who received services with a location code of Jail.
- Employment includes # of clients who were employed or did not stay unemployed during the fiscal year.
- % Employed includes # of clients employed (full time, part time, or supported employment) divided by the number of clients in the workforce. Workforce includes clients who are employed (full time, part time or supported employment) and/or unemployed but seeking work.
- \*Mobile Response services performed in Salt Lake County are submitted by the Huntsman Mental health Institute.
- Estimate of Need— Substance Abuse and Mental Health Services Administration. Substate Estimates of Substance Use and Mental Disorders from the 2018-2020 National Surveys on Drug Use and Health: Results and Detailed Tables. Rockville, MD . <https://www.samhsa.gov/data/report/2018-2020-nsduh-substate-region-estimates-tables>

## Mandated Clients (excludes services with Jail service location)

### Definitions and Calculations:

- Red: Minimum requirements not met.
- Orange: Median number of days/hours or utilization percentages are below 75% or above 300% of the rural or urban median or utilization totals
- **Mandated Services** do not include client data where service were provided in service location Jail.
- **Utilization:** Percent of all clients receiving services. The total Outpatient number of clients served is an unduplicated count by provider of any client receiving an outpatient service.
- **Median Length of Stay:** Median length of time for all clients who received that service. Median is the middle value in a list of numbers.
- **Average Length of Stay:** Average length of time for all clients who received that service. Average or mean is the total number of time for that service divided by the number of clients receiving that service.
- **Inpatient** includes MHE service code 123
- **Residential** includes MHE service codes H2103, 171, and 173
- **Medication Management** includes MHE service codes 61
- **Psychosocial Rehabilitation** includes MHE service codes 70, 80, 100, and 160
- **Case Management** includes MHE service code 120 and 130
- **Respite** includes MHE service code 150
- **Assessment** includes MHE service code 22 Diagnosis and Assessment
- **Testing** is not shown on the scorecard but is included in Total Outpatient
- **Treatment Therapy** includes MHE service codes 30 Individual Therapy, 31 Electroconvulsive Therapy, 35
- **Individual Behavior Management**, 40 Family Therapy, and 50 Group Therapy
- **Total Outpatient** includes all MHE service codes except those reported on the same day as a bed day (170
- **Inpatient**, 171 Residential, and 173 Residential Support)
- **Emergency** includes all service codes with emergency indicator set to “yes.”
- **Peer Support** services includes MHE service codes 130 Peer Support.
- **State Hospital** clients have treatment at a Local Authority prior to or after admission to the Utah State Hospital in the reporting period.

## Youth Clients with Mandated Services

### Client Outcome Measures

#### Definitions and Calculations:

^ Discharge includes clients who have been discharged in the current year or have not received any events of service for at least 7 months.

Valid OQ Clients Served exclude clients who received assessment and testing only and clients served while in Jail.

Percent of Clients Participating: Minimum requirement is 50% or more.

Clients and Episodes are included if there are 2 or more valid administrations per instrument where one or more was administered within the fiscal year.

Deteriorated: Clients who have had a \*Clinically Significant increase in symptoms from intake.

Improved: Clients who have had a \*Clinically Significant reduction in symptoms from intake.

Recovery: If a client's score drops below the empirically derived cutoff between clinical scores and community normative scores and there has been \*Clinically Significant change, then the client is classified as recovered.

Clinically Significant: calculated using the instrument's Reliable Change Index (RCI) and cutoff score, which together define standards for clinically significant change achieved during mental health treatment. The RCI is the amount by which a client's total score must increase (deterioration) or decrease (improvement) from intake to be considered clinically significant. Changes in the total score that are less than the RCI are not statistically relevant (i.e. no change).

Outcomes are not calculated until there has been reliable change within a given instrument. Outcomes; Improved, Stable, Recovered, and Deteriorated are calculated by episode.
